A Message About Food . . .

FROM
THE PRESIDENT
of the
UNITED STATES

Millions of people face famine in the war-torn world!

I call upon every American to help save lives:

Eat less wheat products, fats, and oils.

Balance your diet with foods which are plentiful.

Keep up your victory garden. Preserve food at home.

Waste no food.

Famine and peace cannot go together. It is up to all of us to see that food saves lives and strengthens peace everywhere in the world.

To Cooperators in the Famine Emergency Campaign:

Our United States is one of the very few nations on earth which has an abundance of food. It is estimated that more than 500,000,000 persons in Europe and Asia are desperately hungry. Millions are facing death from starvation and disease unless we help—NOW.

President Truman has called upon every one of us to do his part.

You can help materially if you will display this message from him in a position where it can be read by the maximum number of persons. Your customers and this committee will appreciate your spirit of cooperation.

Cordially yours,

Chester C. Davis

CHESTER C. DAVIS,
Chairman,
President's Famine Emergency Committee.
